

Racquet Roundup!

**A tennis court is nothing more
than a vacant lot without
balls and racquets!**

Here is your chance to provide the opportunity for thousands of others to enjoy the sport of tennis.

The **PTR Foundation** will gladly accept your used racquets, which will be restrung, re-gripped, and redistributed to needy children and adults all over the world.

Just recently, the **PTR Foundation** sent a case of racquets with a PTR Professional to begin a program in Mozambique!

The donation of used racquets may entitle you or your club for a tax credit and at the same time, enrich the lives of others. The **PTR Foundation** is a 501(3)(C) nonprofit organization with the mission to bring tennis instruction, education and equipment to children and adults for whom such opportunity would otherwise not be available.
